### **Boeing Business Jets and CTT Systems to Further Cooperation on Enhancing Humidity Features on All Future Aircraft**

**LAS VEGAS, Oct. 15, 2025** — Boeing [NYSE: BA] and CTT Systems, a specialist on humidity control equipment, today agreed to advance the partnership between both parties to offer cabin humidification systems on all Boeing Business Jets.

Cabin air humidifiers improve the onboard experience for passengers by raising the cabin humidity during cruise to ground-like level, increasing relaxation and sleep quality and decreasing jetlag and fatigue.

The intention to further collaboration, offering a cabin humidification system as a baseline configuration across the BBJ airplane portfolio, was signed by Joe Benson, president of Boeing Business Jets, Peter Landquist, vice president sales CTT Systems and Eric Beverage, sales director Americas' CTT Systems, and took place at NBAA Business Aviation Convention & Exhibition in Las Vegas.
